

Ranchcore Panels™

Welded steel 5-rail continuous fencing. Strong, simple, and **under \$11/ft.**

- 
All-Welded Steel Tube
 1-1/4" OD tube with 14ga thickness for a clean, rigid assembly.
- 
Flush on Both Sides
 Vertical supports are welded in. No protruding flat bar or vertical tubing.
- 
Competitive Pricing
 Quality fencing without sacrificing your budget. Our pricing beats the alternatives.
- 
Easy to Install
 Bolts to wood or steel posts with brackets. Joined with straight connectors that slide together.
- 
Build Any Layout
 90°, 45°, tee, and end panel connectors for any configuration.
- 
Laser Welded
 Laser welding allows for less metal distortion during welding without sacrificing strength.

- Minimum **6 U-Brackets per panel**. 9 recommended.
- Panel weighs approximately **135lb**.
- All prices in **CAD**. Call us for bulk pricing.

Under \$11/ft

One panel + 6 brackets = 20 feet of fence for \$217.

\$205 panel
 + \$12 brackets (6 x \$2)
 = **\$217 for 20 ft**
